

# Introduction à Docker

Theo Rey  
SRE / DevOps  
[contact@reyth.dev](mailto:contact@reyth.dev)

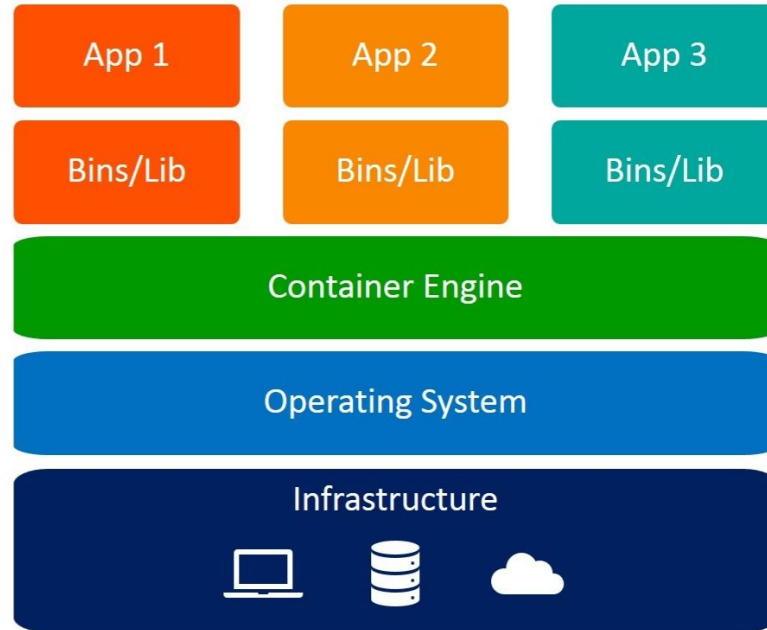

Ce que vous avez l'habitude

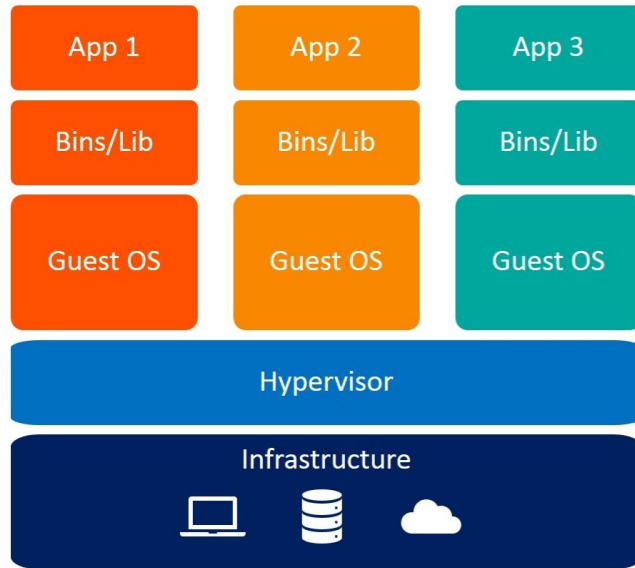

Ce que vous avez vu la semaine dernière

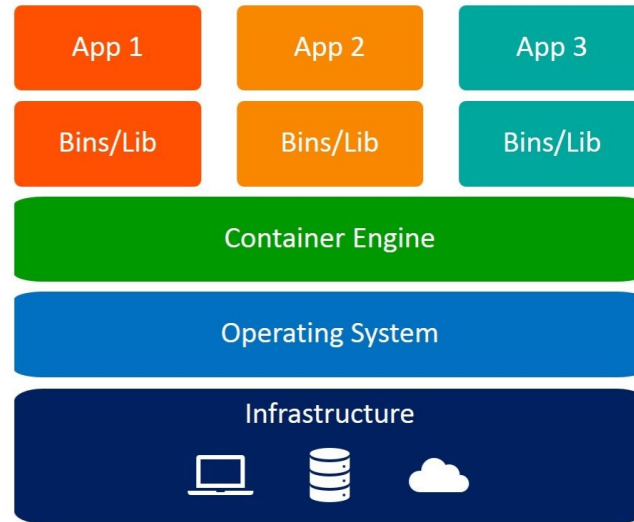

# Le modèle des containers

# Les avantages

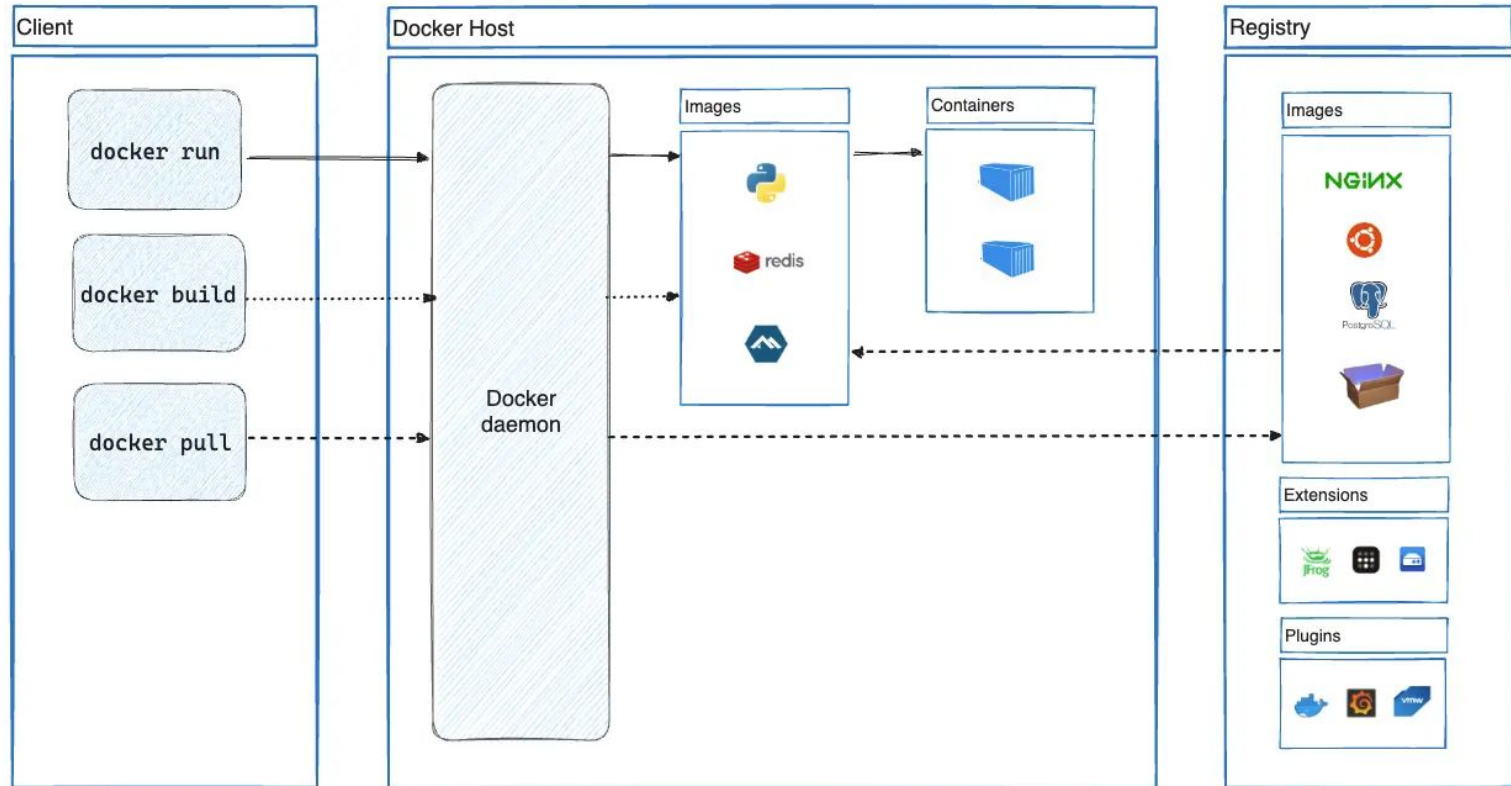

Virtual Machines

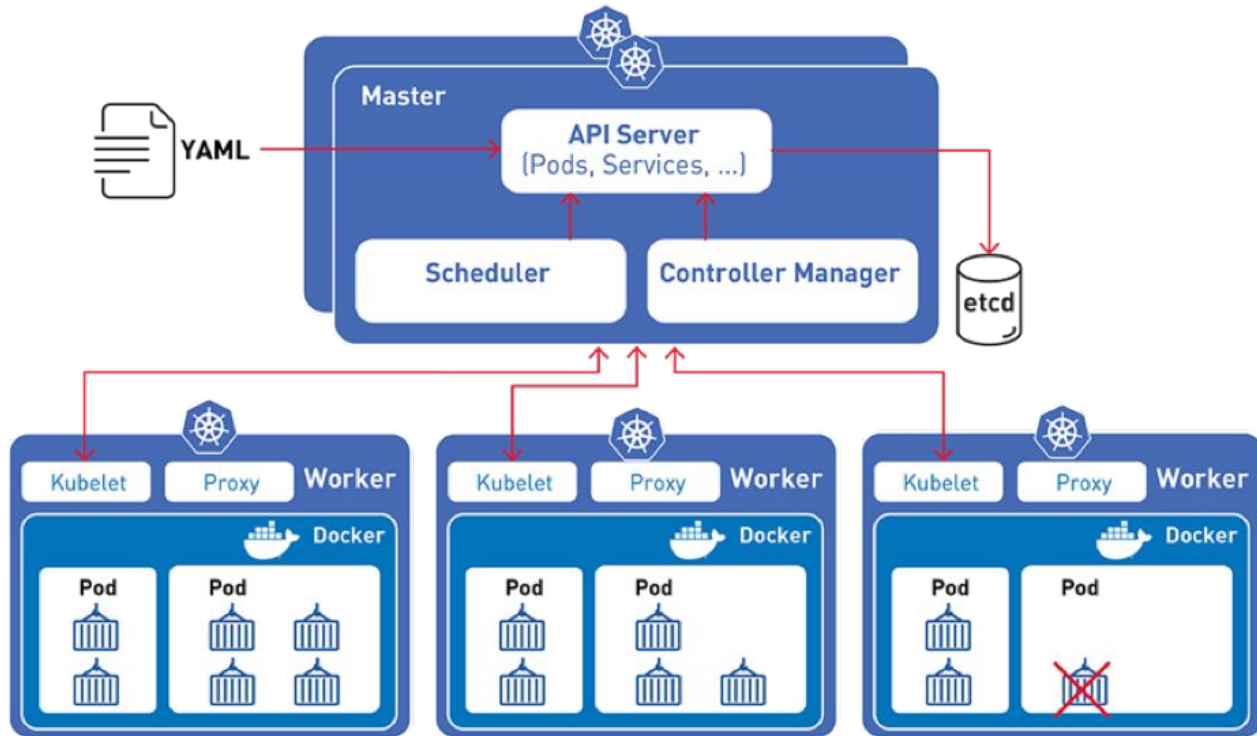

Containers

# Les images (packages) Docker

# En production

## Créer ses images

```
1  # syntax=docker/dockerfile:1
2
3  FROM node:18-alpine
4  WORKDIR /app
5  COPY . .
6  RUN yarn install --production
7  CMD ["node", "src/index.js"]
8  EXPOSE 3000
```

# Docker Compose

```
1  version: "3.9"|
2  services:
3    web:
4      build: .
5      ports:
6        - "8000:5000"
7      volumes:
8        - ./code
9        - logvolume01:/var/log
10     depends_on:
11       - redis
12     redis:
13       image: redis
14     volumes:
15       logvolume01: {}
```
